Directions to Roodeplaat training centre

- **From the south**

If you approach along the N1 from the north, pass the N4 interchange and the Stormvoël/Mamelodi off-ramp.

Take the Sefako Makgatho (Zambezi) Drive exit just after the quarry, pass through the tollgate and turn right along Sefako Makgatho (Zambezi) Drive, crossing underneath the N1 freeway.

- **From the north**

If you approach along the N1 from the north, take the Sefako Makgatho (Zambezi) Drive exit and turn left, away from the N1 freeway.

- **R513 and R573 to the dam and Training Centre.**

Continue straight along Sefako Makgatho (Zambezi) Drive (the R513 Cullinan Road) for about 1 km until you reach a set of traffic lights.

Turn left along the R573 / Moloto Road. Pass the Kameeldrift Police Station, cross over a railway line and Zeekoegat Sewage works on the left.

After 11 to 12 kilometres, the road passes over a slight rise (the rim of an ancient crater) and you will catch a glimpse of Roodeplaat Dam on the right.

As you start descending on the other side of the rise, the turn-off to Roodeplaat Dam and RQS is on the right [the sign says DWAF Training ->].

Drive along the narrow tarred road for about 2km, turn left into the fenced compound and check the hall with the security guards.

(Construction site)

Some of the meetings may occasionally take place at the Construction Site. Turn left just before the fenced compound at the Water Tower, and drive straight until you reach the gate (security will assist). Follow the road to your destination.
